**Peri-Implantitis in 2022 :
Is peri-implantitis treatable?**

**Implant in the Esthetic Zone:
Pushing the Limit from Restorative Perspective**

Conference Line-Up

//Prof. Joseph Kan

**Vertical Tissue Regeneration
in the Esthetic Zone;
Science, Art & Limitations**

Vertical tissue regeneration in the esthetic zone: science, art & limitations often considered somewhat mythical in nature, vertical tissue regeneration in the esthetic zone inspires awe in even the most skilled of surgeons. What do we as clinicians think we know about it? What do we as a scientific community actually know about it? and perhaps most importantly, what do we not know?

//Dr. Adam Hamilton

**Innovation in Virtual Treatment
Planning and Guided Implant Surgery
Digital Workflows for Implant
Rehabilitation of the
Edentulous Patient**

In 2022, "digital" seems to be the name of the game. Has technology improved to the point where we can manage implant treatment from beginning to end in a completely digital manner? this double session provides plenty of insight for those looking to employ the most cutting edge technological advancements in everyday practice.

Conference Line-Up

//Prof. Stanford Clark

**Creative solutions for
challenging patients!**

Creative solutions for challenging patients! Implants have matured over the last 40 years both in terms of design and workflows - What are the critical factors in choosing the right implant, and the right surgical and restorative approaches? join us as we kick off the meeting with some historical perspectives, as well as some exciting things to look forward to in the field of implant dentistry!

//Dr. Katsuyama Hideaki

**Advanced Implant Surgery:
Past, Present & Future**

The era of implant dentistry has resulted in a multitude of new ideas and treatment strategies, some of which have withstood the test of time, and others which are still a work in progress. Let's take a deep dive into how we have managed compromised patients over the years.

Implant in the Esthetic Zone : Pushing the Limit from Restorative Perspective

Don't be fooled by this young team of implantologists - they have plenty of experience under their belt and have exciting cases to share! led by Dr Chatchai Kunavisarut, we welcome the audience to throw your toughest questions at this panel so we can get a lively discussion going.

Without looking back we cannot truly understand what we are doing today, let alone dream of progressing further into tomorrow. With the combined forces of Asia Pacific Society of Osseointegration and Academy of Osseointegration, we are proud to present our conference: "Implant Dentistry: Past, Present, Future. Our highly acclaimed speakers sourced from the Asia-Pacific region and the rest of the globe aim to give us historical content to understand the evidence-basis of our current treatment decisions, and inspire us with the newest concepts in implant dentistry.

We invite you to join us in vibrant Bangkok for our second joint conference of the Academy of Osseointegration. We look forward to this opportunity to resume in-person gatherings, and to celebrate being able to travel and meet with our colleagues once again.

- Dr. Stefani Cheung, APSO Committee Member

APSO membership benefits

- *Discounted or special fees for APSO conferences and events.*
- *Become a member of the Academy of Osseointegration at 50% discounted membership fee.*
- *Continuous education opportunities at APSO periodic meetings, study groups and regional forums.*

Limited seats
for Hands-On
participants

**ON - SITE IN
KUALA LUMPUR**

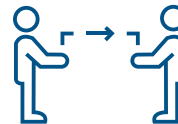

Prof. Joseph Kan completed his specialty training in Prosthodontics as well as a Master Degree of Implant Surgery from Loma Linda University School of Dentistry (LLUSD) in 1997. He is currently a Professor at the Department of Restorative Dentistry and the research coordinator for the Implant Dentistry Program in LLUSD.

Prof. Joseph Kan is on the Periodontology/Implantology Editorial Board of the Practical Periodontics & Aesthetic Dentistry. He is a member of the American Dental Association, Academy of Osseointegration, American College of Prosthodontists, American Academy of Fixed Prosthodontics and an associate member of the Pacific Coast Society of Prosthodontists. Prof. Kan is one of few clinicians worldwide that has been trained in both the surgical and restorative discipline of implant dentistry.

Besides lecturing both nationally and internationally, he has published over 40 articles in reference journals and chapters in textbooks.
